

FASTDS-VS®

FAST ENTERPRISES

DRIVER & VEHICLE
SERVICES SOFTWARE

DESTINATION: **MODERNIZATION**

A driver license is more than a piece of plastic: It's your identity. And a vehicle title is more than a piece of paper: It's consumer protection. At the DMV, you make it all happen.

It's time for a software system that's as powerful as your agency. FastDS-VS[®] is the quickest and safest route to modernization, delivering the 21st century experience your **customers expect, staff need—and you want.**

THE **ANYTIME-ANYWHERE** AGENCY

In the anytime-anywhere agency, accounts and transactions are available from the comfort of home, and in-office visits are shorter. Work conflicts, illness, and disabilities aren't barriers to accessing essential driver and vehicle services. FastDS-VS' client-first features make this vision a reality:

- ▶ Easy-to-navigate e-Services
- ▶ Streamlined appointment scheduling and updates
- ▶ Online document upload and verification
- ▶ Timely communications via 24/7 virtual assistant

YOUR WORKFLOW, IN THE FAST LANE

Say goodbye to system-switching and multiple logins: FastDS-VS is your expedited ticket to a harmonious workflow. In the FAST lane, staff focus on high-value activities like improving the customer experience, instead of data entry and paper shuffling.

ACCELERATED BUSINESS INTELLIGENCE

As a central repository of real-time data, FastDS-VS is your secret weapon to achieving business goals and building a more financially sound agency. Put staff where you need them most, move customers more quickly through your office, and ensure compliance with applicable laws and regulations.

A SYSTEM YOU CAN **COUNT ON**

Unlimited Innovation in Minnesota

In 2018, the federal deadline loomed to issue REAL ID-compliant driver licenses and IDs. The Minnesota Dept. of Public Safety (DPS) needed help—fast. An independent expert review identified FAST as the only vendor capable of delivering:

- ▶ Full modernization for driver and vehicle services
- ▶ REAL ID capabilities in a short period of time

The result? A fully functional system launched in just 10 months: Mandate met.

And things in Minnesota have only gotten better: FastDS-VS allowed DPS to continuously shorten in-office transaction times. When the agency decided to expand its vehicle registration capacity, they were pleased to learn the capability already existed in the FastCore platform.

In March 2022, an independent expert testified to a state committee that FastDS-VS was a “time-tested” software and “a system of record you can count on” that will empower DPS to “go forward with different kinds of innovations into the future.”

KEEPING ROADS SAFE: IRP FOR THE MODERN CARRIER

The country runs on interstate commerce, and the International Registration Plan (IRP) is a game changer for commercial carriers everywhere—but let's take it a step further with FAST IRP.

FAST IRP streamlines your workflow by focusing on efficiency through self-service, automation, and less paperwork. Your staff will gain more time for IRP registration, leading to safer roads.

Available as a standalone system or integrated with FastDS-VS, FAST IRP generates vast operational improvements, including:

- ▶ Regulation compliance
- ▶ Cost and workload reduction
- ▶ Error and fraud detection
- ▶ Improved interfacing with other agencies
